DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group I, Claims 1 - 22 in the reply filed on 4/18/05 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Bellaar.

Bellaar, U.S. Patent No. 5,861,666 discloses a stacked ship assembly. As shown in Figures 1 and 2, the assembly comprises device formative layers in chips 22. As described in column 5, beginning on line 27, the chips are thin, with a stack of four being only 1.2 mm thick. Figures 3 – 5 show an embodiment where a thermal conductive layer 137 is located between the device formative layers.

Allowable Subject Matter

Claim 2 – 5 and 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2822

Claims 8 – 22 are allowed.

The prior art does not teach or suggest the recited semiconductor chip having a connection wire or auxiliary wiring
